

Articulations, Agreements and Institutional Alliances Procedures

1. Governing policy

The *Articulations, Agreements and Institutional Alliances Procedures* (“procedures”) relate to the *Articulations, Agreements and Institutional Alliances Policy*.

The procedures describe the process involved for establishing and managing strategic collaborations, including agreements and institutional alliances between the Institution and other educational institutions and industry partners both domestically and internationally.

2. Scope

These procedures apply to all strategic collaborations at the Institution, including agreements and the staff administering, approving and managing these collaborations. These procedures exclude sponsorship and other commercial agreements.

3. Procedures

These procedures set out the four key processes involved in the establishment, approval and management of strategic collaboration, as per Table 1 below:

3.1 Proposal and expression on interest

Each collaboration proposal requires submission of an Expression of Interest (EOI) form.

3.2 Approval

The proposal is evaluated against the key criteria for approval, in accordance with the Articulations, Agreements and Institutional Alliances Policy.

3.3 Monitoring and reporting

Periodic monitoring and reporting of collaborations to the Academic Board and/or

Learning and Teaching Committee.

3.4 Renewal and termination

Reviews of collaborations prior to expiry of an agreement/MOU forms the basis for renewal and non-renewal of agreements. Annual reviews may also form the basis for termination of agreements/MOUs.
