

Extension of Course Duration Procedures

1. Governing policy

These procedures relate to the *Terms and Conditions of Enrolment*. They describe how international students whose visa will be expiring, apply for an extension of course duration and how staff will enact the terms and conditions in respect to the steps taken for students to apply for an extension at the institution. A condition of a student visa requires an international student to complete their course within the expected duration on their Confirmation of Enrolment (COE). The Institution is permitted to extend a course duration in limited circumstances, as detailed in these procedures. If approved, the student receives a COE with an extended duration and must update their Overseas Student Health Cover (OSHC), before applying for a new student visa.

2. Scope

These procedures apply to all international students on a student visa seeking an extension to their course duration, subject to the conditions in these procedures, and staff involved in approving the requests. These procedures are aligned with applicable Australian Government legislation including the National Code of Practice for Providers of Education and Training of Overseas Students 2018 (National Code), Standard 8.

3. Procedures

3.1. These procedures set out the four key processes involved in assessing a student's request for an extension to their course duration as per Table 1 below:

1. *Submit request*

If an international student's visa will be expiring soon, and they still have subjects left to complete, they will need to submit an application to the institution to extend their COE, and apply for a new student visa with the Department of Home Affairs (DHA).

2. *Extension request assessment, reporting and outcome*

The extension to course duration request is assessed as per the guidelines explained in these procedures. Requests for an extension to course duration from an international student can only be approved for compassionate or compelling circumstances as per National Code, Standard 8, with supporting documentary evidence.

3. Appealing the outcome

Students have the right to lodge a complaint about decision that resulted in their request for an extension to their course duration being refused in accordance with the *Complaints and Appeals Policy* and *Complaints and Appeals Procedures*.

4. Recording

Extensions to course duration are recorded accordingly and reported on PRISMS.
